Policing and Social Media: Social Control in an Era of New Media By Christopher J. Schneider

This book investigates various public aspects of the management, use, and control of social media by police agencies in Canada. This book aims to illustrate the process by which new information technology—namely, social media—and related changes in communication formats have affected the public face of policing and police work. Schneider argues that police use of social media has altered institutional public police practices in a manner that is consistent with the logic of social media platforms. Policing is changing to include new ways of conditioning the public, cultivating self-promotion, and expanding social control. While each case study presented here focuses on a different social media platform or format, his concern is less with the particular format per se, as these will undoubtedly change, and more with developing suitable analytical and methodological approaches to understanding contemporary policing practices on social media sites.

Editorial Review

Review

This book is timely and of major importance given the increasingly central role social media now occupies in global policing, governance, and accountability discourses. [...] the book should be of urgent interest to a wide student, academic, and professional readership, including those with a background in policing, science and technology studies, communication studies, cultural studies, criminology, and sociology. (*Police Journal: Theory, Practice and Principles*)

This is an original and important contribution ... this book's theoretical contributions surely will influence future work across disciplines. *Policing and Social Media* is essential reading for scholars of media and crime ... It surely would also appeal to anyone with broad interests in social control, social change, social institutions, and the sociocultural effects of new media. (*Symbolic Interaction*)

Schneider is a recognized academic expert on social media, and ... he has done the Canadian public a great service in this book, which explores the many ways that Canadian law enforcement bodies are using their own social media presence to try to control public perception of the police and of particular stories ... Schneider has done a fine job with this study, and anyone in Canada who cares about policing, privacy, civil liberties, and personal freedom should read it. (*Vancouver Sun*)

Written for fellow scholars ... this evaluation by a Brandon University sociologist of how the social media revolution has affected policing in Canada is surprisingly populist in its framing. (*Maclean's Magazine*)

Policing and Social Media breaks new ground in the analysis of how technology is changing the public face of police work. (*Brandon University News*)

Christopher Schneider's *Policing and Social Media* takes the reader deep inside the interplay of social communication and social control. As he carefully documents, new openings for interactive communication are emerging amidst the swirl of today's social media—but so are new, insidious forms of surveillance and manipulation. An essential work on contemporary policing and contemporary media, Schneider's book brings critical social analysis to bear on the most immediate of issues. (Jeff Ferrell, Texas Christian University and University of Kent)

Christopher Schneider's groundbreaking new book takes studies of the complex symbiosis between police and media into the era of Facebook, Twitter, and YouTube. The multiple perspectives of its three case studies reveal how the logic of social media is already transforming police practices, not only creating new challenges for police, but also new openings for social control strategies. (Aaron Doyle, Carleton University)

In this cogent and compact book with its innovative "mediated order" approach to concept and method, Chris Schneider helps us understand the game-changing, barely scratched field of social media and social control. In a world awash, or even drowning, in the rising tides of instantaneous, global social media, his case studies lucidly illustrate that the facts do not speak for themselves. Rather, they are representational resources conditioned by their format in the enduring conflicts over meaning and who gets to define reality. Democratic societies do best with the visibility of open communication processes that can bring accountability. This book is most welcome in helping us understand the processes by which the facts and their print, visual and auditory stories are chosen, culled, invented and spun under the dynamic influences of

new information technologies. (Gary Marx, author of "Windows into the Soul: Surveillance and Society in an Age of Technology")

About the Author

Christopher J. Schneider is associate professor of sociology at Brandon University.

Users Review

From reader reviews:

Martha Silva:

In other case, little people like to read book Policing and Social Media: Social Control in an Era of New Media. You can choose the best book if you love reading a book. So long as we know about how is important any book Policing and Social Media: Social Control in an Era of New Media. You can add expertise and of course you can around the world by a book. Absolutely right, simply because from book you can learn everything! From your country until finally foreign or abroad you may be known. About simple thing until wonderful thing it is possible to know that. In this era, we are able to open a book or perhaps searching by internet device. It is called e-book. You can use it when you feel bored stiff to go to the library. Let's study.

Jose Gray:

This Policing and Social Media: Social Control in an Era of New Media is great book for you because the content which is full of information for you who also always deal with world and still have to make decision every minute. This kind of book reveal it information accurately using great coordinate word or we can claim no rambling sentences in it. So if you are read the item hurriedly you can have whole facts in it. Doesn't mean it only gives you straight forward sentences but hard core information with splendid delivering sentences. Having Policing and Social Media: Social Control in an Era of New Media in your hand like having the world in your arm, details in it is not ridiculous a single. We can say that no e-book that offer you world within ten or fifteen small right but this publication already do that. So , it is good reading book. Hi Mr. and Mrs. occupied do you still doubt that?

Alma Driver:

That reserve can make you to feel relax. That book Policing and Social Media: Social Control in an Era of New Media was bright colored and of course has pictures on there. As we know that book Policing and Social Media: Social Control in an Era of New Media has many kinds or genre. Start from kids until teenagers. For example Naruto or Private eye Conan you can read and think that you are the character on there. Therefore not at all of book tend to be make you bored, any it makes you feel happy, fun and unwind. Try to choose the best book for you and try to like reading in which.

Adrienne Helms:

As a student exactly feel bored for you to reading. If their teacher asked them to go to the library or to make

summary for some reserve, they are complained. Just minor students that has reading's heart or real their passion. They just do what the educator want, like asked to the library. They go to at this time there but nothing reading critically. Any students feel that looking at is not important, boring in addition to can't see colorful photos on there. Yeah, it is to get complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this Policing and Social Media: Social Control in an Era of New Media can make you experience more interested to read.
