Editorial Review

From the Author

We've helped thousands of students improve their MCAT scores.

To achieve a high MCAT score, you need to develop skills to properly apply the knowledge you have and quickly choose the correct answer. To be prepared, you must solve numerous practice questions that represent the style and content of the MCAT. Understanding key science concepts, having the ability to extract information from questions and distinguishing between similar answer choices is more valuable than simply memorizing formulas and terms.

This book provides 1,200 practice questions that test your knowledge of MCAT biology and biochemistry topics. In the second part of the book, you will find answer keys and detailed explanations to questions, except those that are self explanatory. These explanations discuss why the answer is correct and - more importantly - why another answer that may have seemed correct is the wrong choice. **The explanations include the foundations and details of important science topics needed to answer related questions on the MCAT.** By reading these explanations carefully and understanding how they apply to solving the question, you will learn important biology and biochemistry concepts and the relationships between them.

Our practice materials will help you succeed by scoring well on the MCAT. All the questions are prepared by our science editors who possess extensive credentials and are educated in top colleges and universities and have been admitted to medical school with stellar MCAT scores. Our editors are experts on teaching sciences, preparing students for the MCAT and have coached thousands of premeds on admission strategies.

Used books may have outdated content. We make content updates regularly based on customers' comments, editorial input and latest test changes. The most current version is only available directly from Amazon (*sold & shipped by Amazon*), Barnes & Noble and Sterling Test Prep web store.

From the Inside Flap

MCAT Strategies

Biology & Biochemistry Practice Questions

- ? Molecular biology: enzymes and metabolism
- ? Molecular biology: DNA and protein synthesis
- ? Molecular biology: eukaryotes
- ? Microbiology
- ? Generalized eukaryotic cell
- ? Specialized eukaryotic cells and tissues

- ? Endocrine system
- ? Nervous system
- ? Circulatory system
- ? Lymphatic and immune systems
- ? Digestive system
- ? Excretory system
- ? Muscle system
- ? Skeletal system
- ? Respiratory system

Answer Keys & Detailed Explanations

From the Back Cover

Scoring well on the MCAT is extremely important for admission into medical school. To achieve a high MCAT score, you need to develop skills to properly apply the knowledge you have and quickly choose the correct answer. To be prepared, you must solve numerous practice questions that represent the style and content of the MCAT. Understanding key science concepts, having the ability to extract information from questions and distinguishing between similar answer choices is more valuable than simply memorizing formulas and terms.

This book provides 1,200 practice questions that test your knowledge of MCAT biology and biochemistry topics. In the second part of the book, you will find answer keys and detailed explanations to questions, except those that are self explanatory. These explanations discuss why the answer is correct and - more importantly - why another answer that may have seemed correct is the wrong choice. The explanations include the foundations and details of important science topics needed to answer related questions on the MCAT. By reading these explanations carefully and understanding how they apply to solving the question, you will learn important biology and biochemistry concepts and the relationships between them.

Users Review

From reader reviews:

Rodney Sierra:

What do you concentrate on book? It is just for students because they are still students or it for all people in the world, what the best subject for that? Simply you can be answered for that concern above. Every person has different personality and hobby for each and every other. Don't to be obligated someone or something that they don't need do that. You must know how great in addition to important the book Sterling MCAT Biology & Biochemistry Practice Questions: High Yield MCAT Questions. All type of book would you see on many methods. You can look for the internet methods or other social media.

Donn Chavez:

In this 21st one hundred year, people become competitive in every single way. By being competitive currently, people have do something to make all of them survives, being in the middle of often the crowded place and notice by means of surrounding. One thing that oftentimes many people have underestimated this for a while is reading. Sure, by reading a publication your ability to survive enhance then having chance to stand up than other is high. For you who want to start reading some sort of book, we give you that Sterling MCAT Biology & Biochemistry Practice Questions: High Yield MCAT Questions book as nice and daily reading book. Why, because this book is greater than just a book.

Nancy Smith:

Reading a reserve tends to be new life style within this era globalization. With reading through you can get a lot of information that will give you benefit in your life. Using book everyone in this world can easily share their idea. Books can also inspire a lot of people. Many author can inspire their very own reader with their story or even their experience. Not only the storyline that share in the guides. But also they write about the knowledge about something that you need illustration. How to get the good score toefl, or how to teach children, there are many kinds of book that you can get now. The authors these days always try to improve their ability in writing, they also doing some exploration before they write to their book. One of them is this Sterling MCAT Biology & Biochemistry Practice Questions: High Yield MCAT Questions.

Sharon Keller:

What is your hobby? Have you heard which question when you got college students? We believe that that concern was given by teacher for their students. Many kinds of hobby, All people has different hobby. So you know that little person like reading or as examining become their hobby. You should know that reading is very important in addition to book as to be the matter. Book is important thing to include you knowledge, except your own personal teacher or lecturer. You discover good news or update regarding something by book. A substantial number of sorts of books that can you decide to try be your object. One of them is actually Sterling MCAT Biology & Biochemistry Practice Questions: High Yield MCAT Questions.
