Case Study Research: Design and Methods (Applied Social Research Methods) By Robert K. Yin

This best-selling book focuses on case study design and analysis as a distinct research tool with wide applicability. It has now been carefully revised, updated, and expanded to include a discussion of the debate in evaluation between qualitative and quantitative research, more on the role of theory in doing good case studies, more extensive discussion of triangulation as a rationale for multiple sources of evidence, and an examination of program logic models as another analytic option. In addition, the text contains many topical examples, including ones dealing with international trade and the world economy. Despite these revisions, this second edition retains virtually all the original text, making it an even more comprehensive introduction to the field.

Editorial Review

About the Author

Robert K. Yin is President of COSMOS Corporation, an applied research and social science firm. Over the years, COSMOS has successfully completed hundreds of projects for federal agencies, state and local agencies, and private foundations.

Outside of COSMOS, Dr. Yin has assisted numerous other research groups, helping to train their field teams or to design research studies. The most recent such engagements have been with The World Bank, the Division of Special Education and disAbility Research at George Mason University, the Department of Nursing Research and Quality Outcomes at the Children's National Health System (Washington, DC), and the School of Education, Southern New Hampshire University.

Dr. Yin has authored over 100 publications, including authoring or editing 11 books (not counting the multiple editions of any given book). Earlier editions of the present book have been translated into eight languages (Chinese, Japanese, Korean, Swedish, Romanian, Italian, Polish, and Portuguese), and a second book on *Qualitative Research from Start to Finish* (2016) is in its 2nd edition and has been translated into four languages (Chinese, Korean, Swedish, and Portuguese). Dr. Yin received his B.A. in history from Harvard College (magna cum laude) and his Ph.D. in brain and cognitive sciences from MIT.

Users Review

From reader reviews:

Harold McDonough:

Reading a book tends to be new life style in this particular era globalization. With reading you can get a lot of information that can give you benefit in your life. Along with book everyone in this world can share their idea. Ebooks can also inspire a lot of people. Plenty of author can inspire their particular reader with their story as well as their experience. Not only situation that share in the guides. But also they write about the ability about something that you need illustration. How to get the good score toefl, or how to teach children, there are many kinds of book that exist now. The authors in this world always try to improve their ability in writing, they also doing some analysis before they write with their book. One of them is this Case Study Research: Design and Methods (Applied Social Research Methods).

Richard Dutton:
