Introduction to Agricultural Accounting By Barbara M. Wheeling

Introduction to Agricultural Accounting is written specifically for accounting information related to agricultural operations. Typical issues and situations unique to the agricultural industry, and relevant examples of accounting are presented throughout. The accounting procedures offered build on current practice in agriculture. Cash-basis accounting, prevalent in many farm operations is explained in the text through an accrual-adjusted system, providing more accurate information for the measurement of profitability of the farm operation. Figures and tables are presented throughout for easy reference, and to simplify accounting practices.

Editorial Review

Review

This is a good idea. Agriculture accounting is an important component of the success of an Agriculture business. At my level, I am looking for a book that can give a practical approach to this subject.

About the Author

Barbara Wheeling is an Assistant Professor in Accounting at the Montana State University-Billings. Barbara is a Certified Public Accountant and is a member of Pacific Northwest Farm Business Management Instructors. She has contributed to Alternatives to GAAP for the Agricultural Industry, Today's CPA, Agricultural Accounting: A Case for Asset Revaluation, and Accounting for Agricultural Producers monograph for Bureau of National Affairs, Washington, DC.

Users Review

From reader reviews:

Brian Dunlap:

Book is definitely written, printed, or outlined for everything. You can know everything you want by a reserve. Book has a different type. As you may know that book is important factor to bring us around the world. Next to that you can your reading ability was fluently.
