The British Mad Dog: Debunking the Myth of Winston Churchill By M S King

*250 Pages / 500 Images Check any list of 'great men' of the 20th Century and you're sure to find Winston Churchill ranked near the top. It was the courage, the strength, the indomitable will and the inspirational oratory of 'The British Bull Dog' - we are told - that saved Britain and the 'free world' from capitulating to Hitler. For such noble attributes and deeds, statues of 'Sir Winston' stand all over England, and even in Canada, the USA and continental Europe. Countless schools bear his name, as do parks, towns, squares, highways, streets, tanks, submarines, ships, mountain ranges, trust funds and even cigars. More than just a great statesman, Churchill was – the court-historians assure us – a literary giant as well. His numerous historical works made him one of the most prolific writers ever to serve as head of state. There is one wee-little problem with this flattering historical narrative of Churchill -- it is false! And by false, author M S King doesn't merely mean to say embellished, exaggerated or incomplete. No, the entire tale is a monstrous lie originally engineered to conceal the foul deeds of a deranged warmonger, and perpetuated out of ignorance and academic arrogance. In 'The British Mad Dog', King draws heavily upon 'mainstream' sources to strip bare the phony facade of this vilest of charlatans. The surgical precision with which Churchill is cut down to size will radically change not only your view of the man, but also of the fake world in which we live in.

Editorial Review

About the Author

M. S. King is a private investigative journalist and researcher based in the New York City area. A 1987 graduate of Rutgers University, King's subsequent 30 year career in Marketing & Advertising has equipped him with a unique perspective when it comes to understanding how "public opinion" is indeed scientifically manufactured. Madison Ave marketing acumen combines with 'City Boy' instincts to make M.S. King one of the most tenacious detectors of "things that don't add up" in the world today. Says King of his admitted quirks, irreverent disdain for "conventional wisdom", and uncanny ability to ferret out and weave together important data points that others miss: "Had Sherlock Holmes been an actual historical personage, I would have been his reincarnation." King's other historical works, (see Amazon author page for M S King) include: The Bad War: The REAL Story of World War II The War Against Putin: What the Government-Media Complex Isn't Telling You About Russia Planet Rothschild: The Forbidden History of the New World Order Napoleon vs the Old & New World Orders King's other interests include: the animal kingdom, philosophy, chess, cooking, literature and history (with emphasis on events of the late 19th through the 20th centuries).

Users Review

From reader reviews:

Athena Thornton:
