The Fox Trilogy: Imagining the unimaginable and dealing with it By Chantell Ilbury, Clem Sunter

Clem Sunter and Chantell Ilbury's seminal scenario planning books – The Mind of a Fox, Games Foxes Play and Socrates & the Fox – are now available for the first time as a single-volume e-book. The Fox Trilogy traces the development of a methodology that is now used around the world by large and small organisations alike. It assumes the future is unpredictable and should be split into different scenarios, each of which has its own flags, probability and optimum course of action. This model provides decision-makers with the same speed and quality of response to change that foxes possess.
