### Microwave MESFETs and HEMTs (Microwave Library) (Artech House Microwave Library (Hardcover)) By J. Michael Golio

This book takes the reader from the basic operating principles of the microwave MESFET and HEMT to the application of device models in modern CAD programmes. In addition to explaining device operation and modelling, the book provides detailed specific algorithms which can be used to efficiently determine the parameters needed to utilize the available device models. Detailed comparisons of MESFET and HEMT performance are presented, and ultimate limitations to these devices are discussed. This book is designed for microwave device and circuit design engineers, GaAs device and MMIC design engineers, MMIC and Hybrid circuit design engineers, and researchers in large signal device modelling.

**Microwave MESFETs and HEMTs (Microwave Library) (Artech House Microwave Library (Hardcover))** By J. Michael Golio **Bibliography**

- Sales Rank: #3505178 in Books
- Color: Other
- Brand: Brand: Artech Print on Demand
- Published on: 1991-02-01
- Original language: English
- Number of items: 1
- Dimensions: 9.02" h x .94" w x 5.98" l, 1.59 pounds
- Binding: Hardcover
- 368 pages

### **Editorial Review**

#### About the Author

Golio joined Motorola's Semiconductor Research and Development Laboratory as Characterization Manager.

### **Users Review**

#### **From reader reviews:**

##### **Steve Duran:**

Why don't make it to be your habit? Right now, try to prepare your time to do the important action, like looking for your favorite e-book and reading a reserve. Beside you can solve your trouble; you can add your knowledge by the e-book entitled Microwave MESFETs and HEMTs (Microwave Library) (Artech House Microwave Library (Hardcover)). Try to face the book Microwave MESFETs and HEMTs (Microwave Library) (Artech House Microwave Library (Hardcover)) as your pal. It means that it can for being your friend when you truly feel alone and beside those of course make you smarter than previously. Yeah, it is very fortunate for yourself. The book makes you considerably more confidence because you can know every thing by the book. So , let me make new experience and knowledge with this book.

##### **Suzanne Crider:**

Now a day people that Living in the era where everything reachable by match the internet and the resources in it can be true or not require people to be aware of each information they get. How people have to be smart in having any information nowadays? Of course the solution is reading a book. Studying a book can help folks out of this uncertainty Information particularly this Microwave MESFETs and HEMTs (Microwave Library) (Artech House Microwave Library (Hardcover)) book because book offers you rich info and knowledge. Of course the details in this book hundred per cent guarantees there is no doubt in it as you know.

##### **Tom Johnson:**

Reading a book for being new life style in this calendar year; every people loves to learn a book. When you examine a book you can get a wide range of benefit. When you read books, you can improve your knowledge, due to the fact book has a lot of information into it. The information that you will get depend on what sorts of book that you have read. In order to get information about your study, you can read education books, but if you want to entertain yourself you are able to a fiction books, these us novel, comics, and also soon. The Microwave MESFETs and HEMTs (Microwave Library) (Artech House Microwave Library (Hardcover)) provide you with new experience in examining a book.

**Stacey Greene:**

A lot of publication has printed but it takes a different approach. You can get it by web on social media. You can choose the most effective book for you, science, amusing, novel, or whatever by means of searching from it. It is called of book Microwave MESFETs and HEMTs (Microwave Library) (Artech House Microwave Library (Hardcover)). Contain your knowledge by it. Without causing the printed book, it may add your knowledge and make a person happier to read. It is most critical that, you must aware about book. It can bring you from one spot to other place.
