SparkCharts™:

The information you need-concisely, conveniently, and accurately.

Created by Harvard students for students everywhere, these study companions and reference tools cover a wide range of college and graduate school subjects, from Business and Computer Programming to Medicine, Law, and Languages. They'll give you what it takes to find success in school and beyond. Outlines and summaries cover key points, while diagrams and tables make difficult concepts easier to grasp.

This two-page chart is a perfect reference for homework and problem sets. On side one, the chart lists the most important chemical formulas and provides quick refreshers on significant figures and balancing equations. Side two includes a beautiful periodic table that gives the following information for each element:

- Name
- Atomic number
- Atomic symbol
- Atomic mass
- Oxidation states (most stable state in bold)
- Electronegativity
- Electron affinity
- First ionization potential
- Atomic radius
- Electron shell configuration
