Tiny House Living: Ideas For Building and Living Well In Less than 400 Square Feet By Ryan Mitchell

Tiny House, Large Lifestyle!

Tiny homes are popping up across America, captivating people with their novel approach not only to housing, but to life. Once considered little more than a charming oddity, the tiny house movement continues to gain momentum among those who thirst for a simpler, "greener," more meaningful life in the face of society's "more is better" mindset.

This book explores the philosophies behind the tiny house lifestyle, helps you determine whether it's a good fit for you, and guides you through the transition to a smaller space. For inspiration, you'll meet tiny house pioneers and hear how they built their dwellings (and their lives) in unconventional, creative and purposeful ways. They'll invite you in, show you around their cozy abodes, and share lessons they learned along the way.

Inside you'll find everything you need to design a tiny home of your own:

- Worksheets and exercises to help you home in on your true needs, define personal goals, and develop a tiny house layout that's just right for you.
- Practical strategies for cutting through clutter and paring down your possessions.
- Guidance through the world of building codes and zoning laws.
- Design tricks for making the most of every square foot, including multi-function features and ways to maximize vertical space.
- Tours of 11 tiny houses and the unique story behind each.

Tiny House Living is about distilling life down to that which you value most...freeing yourself from clutter, mortgages and home maintenance...and, in doing so, making more room in everyday life for the really important things, like relationships, passions and community. Whether you downsize to a 400-square-foot home or simply scale back the amount of stuff you have in your current home, this book shows you how to live well with less.

Editorial Review

About the Author

Ryan Mitchell lives in Charlotte, North Carolina, and has been active in the Tiny House movement for years. You might know him as the main blogger and founder of TheTinyLife.com, a website dedicated to sharing stories of tiny living--whether it's tips for simplifying your life or advice for building your own tiny residence. Because nothing beats one-on-one interactions, Ryan helps people connect with each other through community events at TinyHouseConference.com. Since Ryan built his own tiny house in 2013, he has been able to actively pursue his passions, which include photography, backpacking, and travel. Ryan believes that alternative housing options and sustainable local agriculture are key components to meet the future needs of society.

Users Review
