"5 Stars. Kristina Seleshanko has created a wonderful collection of enticing recipes, all featuring those yellow-top, front yard pests: dandelions. She includes some rather expected dishes, like omelets, salads and soups. Other recipes, however, are likely to catch readers off guard, like pizza, soda, jellies, wine and even ice cream and cookies! What I enjoy most about this cookbook is the abundance of education. The author includes valuable nutritional information, but also instructions on how to harvest dandelions, how to preserve them and store and what alters the taste of these greens. She's obviously very knowledgeable. All in all, this book is an excellent value at a great price."

"5 Stars. What a fantastic book! I have seen dandelion recipes here and there, and am determined to try my hand at dandelion cordial, but this book has it all. The author went to great pains to give a very comprehensive book on dandelions in every form. With this book you will learn to use every part of the dandelion to make foods and beverages for every meal of the day. If you are interested in frugal living or just trying something a little different, get this book and get out in the yard and start picking!"
